1ST SLOVENIAN CONGRESS OF ACUPUNCTURE

September 21 – 23, 2018

LJUBLJANA, GRAND HOTEL UNION

SLOVENIA

Dear Colleagues,

We are pleased to invite you to attend the 11th European Congress for Integrative Medicine, “The Future of Comprehensive Patient Care” (ECIM) that will be held in Slovenia at the end of September 2018. The aim of the congress is to promote health and develop integrated and sustainable treatment for acute and chronic diseases.

Your conference host, Alma Mater Europaea ECM, is proud for having been given the possibility to organise this congress in Slovenia. In the past decade, we have been developing study programmes that are complementary to the existing university programmes. As a young and dynamic higher education institution we are not afraid of tackling paths less taken. This shows in the accreditation of study programmes that are outside of the mainstream topics, such as the master programme in Health Sciences, with a major in Integrative Health Sciences. It is because of this that we feel very honoured and privileged for the change to organise this European congress of integrative medicine.

We look forward to welcoming you to Slovenia.

Sincerely,

Prof.dr. Ludvik Toplak

President of Alma Mater Europaea ECM

Vice-Rector of Alma Mater Europaea of the European Academy of Sciences and Arts
